Applicant for Data Science Intern · Graduated

Skills: Python, Pandas, NumPy, SQL, Scikit-learn, Matplotlib, Seaborn, Git

Retail Customer Analytics Project.

Used Python and SQL to query, clean and analyze customer transaction data with missing values and outliers.

Performed exploratory data analysis, correlation analysis and statistical summaries before feature engineering.

Built and evaluated classification models using accuracy, precision, recall and F1-score.

Created visualizations and an interactive dashboard using Matplotlib and Plotly.

Published the project to GitHub with documentation.
